

Courtney Asker
2009 Stanley M. Schoenfeld Memorial Scholarship Honorary Recipient
Acceptance Speech

Good Evening. I would like to thank the Scholarship Committee for bestowing this honor upon me and having me here this evening. Also, congratulations to Matt. When I started my college career 8 years ago, I never considered studying finance. But when I got to Rockefeller College at SUNY Albany and took a public finance course, I realized there was more to the study than just stocks and hedge funds. I learned that it was a field that was really interesting and that I could see myself having a future in. I would like to thank the faculty and my fellow students at Rockefeller College for contributing to my experiences on the road to my career. This has been a wonderful evening and I hope to be back here again in the future, not as a scholarship recipient, but as one of you. Thank you.
